

Motorized Retractable Screens

Extended Outdoor Living

MaestroShield®
Protection Like No Other

About Us

MaestroShield® is an innovative design, engineering, manufacturing, and supply company. MaestroShield is the most rapidly growing supplier of exterior screen and shade, interior shade, hurricane shutters and security rolling shutters, electronics, and tubular motors.

Founded on the hallmarks of: Quality, Price, and Delivery, MaestroShield instills these fundamental principles in everything we do. Our efforts to design, engineer, manufacture, and supply the best motorized hurricane and security protection shutters, solar and insect screens, and interior shading products and accessories include: rigorously testing our products and receiving certifications by industry leading authorities, and standing by one of the most comprehensive warranty programs in the industry.

Our commitment to engineering excellence and production is surpassed only by our commitment to 100% customer satisfaction.

We sell through local dealers, please contact your dealer today. Local dealers can be found at maestroscreens.com

Style Privacy & Shading

Quality

Quality assurance is the hallmark of our manufacturing philosophy. Our tubular motors are UL, TUV & CE certified and have a top reliability rating.

Our electronics are FCC approved and we have our own Quality Management System written according to ISO 9001 standards.

Our adoption of international standards ensures that the products we produce will perform safely as designed while at the same time produce and deliver a very high level of customer satisfaction.

**Enhance your
Outdoor Living...
with Comfort and Convenience**
UV Ray Home Protection

Enhancing Your Home

Enhancing your home and lifestyle with the push of a button with the addition of a motorized retractable screen. Our motorized screens are crafted and designed to fit a variety of openings and installations, allowing you to enhance your porches, entryways, lanais, outdoor kitchens, pergolas, patios, greenhouses, sheds and most other areas that you are looking to expand your outdoor living in. The addition of a motorized retractable screen will allow you the element of outdoor living, all while preventing debris and insects from entering your area. These screens will also help by blocking the harmful rays of direct sunlight, enabling you to increase the energy efficiency of your home and decrease your electricity costs, along with reducing unnecessary fading of interior possessions. The motorized screens can fully retract when not in use, providing privacy and comfort when needed and wanted, all at an affordable cost.

EXTERIOR SCREENS

MaestroShield's screens provide energy efficient sun shading, shelter from insects, climate control capability, as well as rain and wind reduction. The ingenuity of our screens has pleased even the most discerning homeowners with their beauty, multiple applications, and ease of installation. We have maximum sizes spanning from 30' wide to 21' in height. (some restrictions apply)

GARAGE DOORS

Our versatile, sturdy, mold and mildew resistant, easy to operate garage door screens are like adding another room to your home. They provide both function, style, and enhanced value.

QUICK ZIP SCREENS

MaestroShield's ready-made Quick Zip system is compact and easy to install for applications up to 10' w x 8' h. It utilizes our 3" Rounded Hood with an easy spring loaded operation. Each unit includes a pole that allows you to easily reach the top for pull down, or push up with ease. Comes in our standard colors of bronze and white with many fabrics to choose from. This package works great with Pergolas and other applications.

Clear Vinyl with Weblon Borders

Expand your Living Experience Outdoors

Vinyl and Weblon

Clear vinyl, or tinted vinyl provides you with many options without obstructing the vistas. Provides some level of temperature and wind control .

Can have colorful borders to match your décor made from our durable marine grade Weblon products Sizes span from up to 17' wide by 12' in height.

“ The vinyl works great. We used our outdoor heaters and it’s just perfect for when the weather is a little chilly. Thank you.”

– Mikala, *Homeowner*

FREE HANGING

Limited on wall space? Keep the same beautiful attributes as MaestroShield's adjustable track system, without the tracks! Our free-hanging option provides you with the aesthetic look and function you need.

WIRE SYSTEM

Durable, stable and attractive. The wire system uses stainless steel wire as a virtual track. It is the lite version of our exterior track system, but with all of the same benefits.

OPTIONS

Whether it is adjustable track with exterior screen fabric, free-hanging, wire, vinyl with weblon or vinyl only, you will be the envy of your neighborhood. Beauty and function rolled into one. Multiple uses for both residential and commercial applications.

Free-Hanging
Maximize Air Flow

Enhancing Your Business

Enhance your business by investing in comfort and convenience for your clientele. The addition of a motorized screen system to your business allows you and your customers to utilize and maximize the outdoor space, creating an additional area for both profit and enjoyment! The motorized screen systems can block against debris, insect invasions, and direct glare from the sun, optimizing outdoor areas, with the push of a button or automatically with our weather reactive sensor. Our systems have been systematically engineered with convenience and compatibility in mind. The hood housing units and side tracks were designed to be interchangeable allowing you to further customize your install to compliment, not obstruct your structure's existing design.

EXTERIOR SCREENS

MaestroShield's screens provide comfort for your guests, from morning to night.

Mounting

The adjustable track and bracket system designed by MaestroShield® allows you to completely recess your entire system, making it virtually disappear when not in use. Installs utilizing this method would have the tracks and bracket system located in a wall, ceiling or other architectural feature hidden from direct sight. Customizable to every project, our motorized exterior screen systems seamlessly integrate into a variety of architectural styles, including stucco, brick, wood, vinyl siding, stone, existing screen enclosures, and concrete.

Surface Mount: Installed on surface of the wall

Trapped Mount: Installed in restricted spaces with no room above or on sides

Recessed Mount: Installed with tracks or hood located in a wall, ceiling or other architectural feature

“ I’ve worked with MaestroShield product for years and have done many installations. The installs are easy, straight forward and tech support is always available if needed.”

– Stan, *Installer*

Design & Customize

Fabrics

Many different colors, styles, and weights are available in exterior screen fabrics—designed by multiple manufacturers, such as Phifer, Twitchell, Mermet, Serge Ferrari, etc. Additionally, we have provide enclosures using Clear (or tinted) Vinyl, with or without a Weblon border. Most fabrics are mildew and fade resistant.

TYPES:

Tuff Screen (standard), 40% UV protection

Super Screen/No-see-um 40% UV protection (weave blocks insects)

80# blocks up to 80% of sun's heat, 75% UV protection

90# blocks up to 80% of sun's heat, 90% UV protection

95# blocks up to 95% of sun's heat, 95% UV protection

97# blocks up to 97% of sun's heat, 97% UV protection

99# blocks up to 95% of sun's heat, 99% UV protection

BO blocks 100% of light with complete Block Out

Weblon: Most styles flame resistant

Clear Vinyl: Standard is 20 gauge thickness - thicker gauge (special order)

Colors: Our standard colors are black, grey, brown, dark bronze, beige, stucco, and white. And in heavier weights, colors available are alpaca, carbon, mocha, sand, chestnut, white/grey, white, charcoal, espresso texture, granite, and tobacco as well as clear vinyl and many colors of weblon to choose from. The higher the weight of the fabric (example 80# vs 90#), the tighter the meshing, and the more solid the appearance of the fabric. We can do most custom colors from many different manufacturers.

Screen Art

Imagine the Possibilities

Our artist can be commissioned to create your own look by designing unique art, or imprinting a standard drawing on the fabric you choose.

Hoods and More

The 5 sided 45 degree hood is available in 5 ½", 6 ½" and 7" sizes that allow you to reach heights greater than ever before.

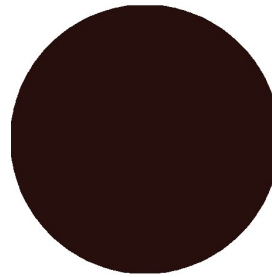

Our rounded hood in 5 ½" offers an aesthetically pleasing design that compliments your architectural layout without blocking your view.

The rounded hood contains a unique feature that MaestroShield designed to help with the control of bugs from entering under the hood.

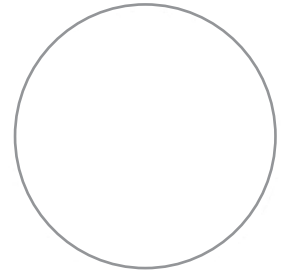

The 4" square hoods are great for Pergolas and many other applications.

COLORS:

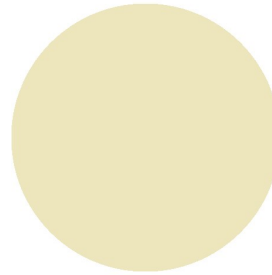

Side caps and hood options are available in Bronze, White, Ivory, and Beige. Additional colors may be available upon special request, additional costs will incur.

SOLAR PANEL

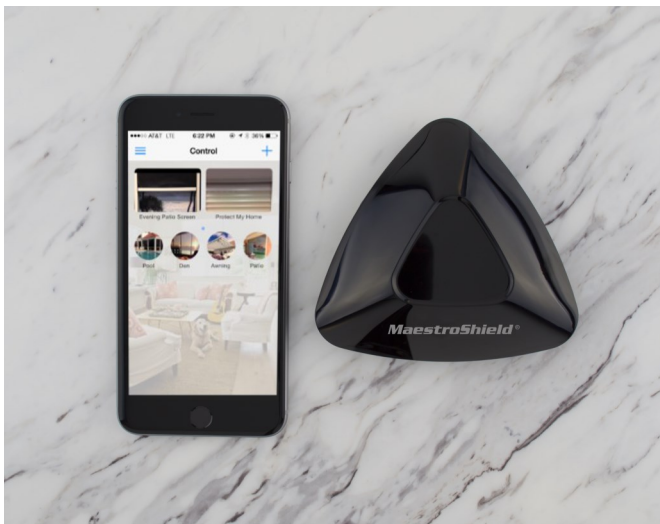

Why not harness nature's most powerful resource: the Sun? Solar energy is an abundant natural resource. Solar energy not only provides you with "green" compliancy, but it also gives you immeasurable energy savings. Our Solar Panel and DC battery motors provide added convenience when extensive hardwiring is not an option. Great for gazebos, sheds, barns, or if you live in an area prone to power spikes, or unstable AC power!

WIRING OPTIONS

For a variety of motor styles (with or without built-in receivers) with electronic or mechanical limit settings. Motors with rebound capability are also available.

AC Hard Wired	110V-120V - Widely used in USA
AC Hard Wired	220V-230V - Mainly outside USA
DC Option	12V & 24V DC
DC Option	5V DC Lithium Battery used with USB or Solar Panel

WI-FI HUB SMART CONTROL

Create your own customized remote control with your smartphone. Define your settings and use your smartphone to control our screens from wherever you are. You can also use our Smart remote to control any device in your home today - that includes TVs, ceiling fans, blinds, garage doors, air conditioning, alarm clocks, etc.! Our Smart remote provides you with both convenience and peace of mind. Compatible with both Amazon's Alexa and Google Home.

ELECTRONICS AND CONTROL SYSTEMS

MaestroShield's electronics put the beauty of your indoor shading, outdoor screening, and hurricane and security systems into motion. Our state of the art electronics support low data rates, low power consumption, security, and reliability. With a multitude of programming options, you have the convenience of total control and the quality assurance, technical support, and innovation that is the cornerstone of every MaestroShield product. You have your choice of a variety of remote controllers: handheld single channel, multi-channel, LED control, keychain, and wall mounted options.

SUN AND WIND SENSOR

The Sun and Wind Sensor automatically controls your motorized screens based on current weather conditions. Adjusts automatically (up or down) to your personalized wind and light settings. Protects your investment by raising screens in high wind conditions, and lowers screens automatically to prevent excessive sun damage and increase comfort. Provides energy savings by reducing consumption up to 40%! Just set it, and forget it.

LED Dimmable Lighting

Set your mood and create your own ambiance with LED lighting. Our LED moisture rated LED lights give you atmosphere at the touch of a button, with our hand-held remote control, or your smartphone controller! Sturdy enough for outdoors and delicate enough for indoors. Our standard LED lights color is blue, or white. The applications are endless!

All products shown in brochure are only a partial representation of our complete product line.
